2. Aims and Objectives

The broad aim of the present study was to check the anti-mycobacterial activity of extracts of selected plants (*Lantana camara, Ocimum sanctum, Aloe vera and Acacia Senegal*) against standard strain of *M. avium* and *M. tuberculosis*.

Specific Objectives include:-

i. To evaluate the anti-mycobacterial activity of selected plant extract on standard Mycobacterial strains.

ii. To compare the anti-mycobacterial activity of plant extracts with standard drug isoniazid.

iii. To compare the anti-mycobacterial activity of Methanolic & Water Extract of Selected Plants.
