Acknowledgement

I bow my head with reverence to Almighty Allah who blessed me with wisdom, courage, kind parents, supportive siblings, patient family, gracious teachers, understanding friends and bestowed me with the ability to do this work. It is the blessing of Almighty which enabled me to achieve this goal.

First and foremost I want to thank my advisor Dr. Sheikh Bilal Ahmad Associate Professor Division of Veterinary Biochemistry, FVSc & AH, SKUAST-K, Shuhama, Srinagar, India. It has been an honor to be his student. He has taught me, both consciously and un-consciously, how good experimental Biochemistry is done. I appreciate all his contributions of time and ideas, to make my Ph.D. experience productive and stimulating. The joy and enthusiasm he has for his research was contagious and motivational for me, even during tough times in the Ph.D. pursuit. I am hard-pressed for words and even if there are, any, they fall short of my recommendations for you.

A special thanks to Dr. Purnima Shrivastava Dean Research Bhagwant University, Ajmer Rajasthan, India for her invaluable insight. Crucially and strategically her help meant a logical determination of my unremitting efforts overtime and the beginning of my scientific career. Kudos to your help mam, your help means the world to me.

Unequivocally, I thank the entire Ph.D. Section of Bhagwant University, Sikar Road Ajmeer, Rajasthan and Division of Veterinary Biochemistry Faculty of Veterinary Sciences and Animal Husbandry, Sher-e-Kashmir University of Agricultural Sciences and Technology-Kashmir for their support during the entire period of study.

Pertinently, a mention of Dr. Showkat Ahmad Bhat should not go amiss without his support and efforts my work was impossible. His opinions have been phenomenal in compiling this work.

Equally on the list are Dr. Ishraq Hussain and Dr. Showkeen Muzamil Bashir, Assistant Professors, Division of Veterinary Biochemistry, FVSc & AH, SKUAST-K, for their words of wisdom.
Last but not the least, I wish to express gratitude to my Mother who went heavenly aboard during the course of my study and Father for their love, care, support and trust on me, and the wordless help that has always come my way. Today, what I am is just because of them, I am really thankful to Almighty that has helped me to fulfill the dream of my parents.

Atlast but not least, I wish to extend my loving regards to my spouse Jan-un-Nisa, son Kamil Islam and brother kaisar iqbal who have endured a lot and offered a moral support throughout my study period. I will remain indebted to them. In the end I am greatly indebted to all those whose name I haven’t mentioned.

Mushtaq Ahmad Malik
