

ACKNOWLEDGEMENT

First of all I thank God, for giving me everything, with help of which I could reach here today. I started my career as a lecturer in educational institute. Presently I am also teaching Psychology in LVN school and also working as a counsellor there. The purpose of mentioning this is to show that how this subject has helped me to enhance my soft skills. Here I wish to mention few wonderful names who contributed in this journey so far.

I would like to thank all the sources and valuable persons who helped me in completing my Ph.D. thesis.

I thank my supervisor Dr. Bharti Joshi, HOD, Dept. of Life Long Learning, D.A.V.V. Indore with whose assistance, direction and motivation I could complete my research work. Mam is devoted to her work and she keeps herself updated with new knowledge. She gave this motivation to me also.

I thank my Co-supervisor Dr. Saroj Kothari, Professor & Head, Dept. of Psychology, Govt. M.L.B.P.G. Girls college, Indore, who suggested me this research topic, motivated me in my research work at every step and helped me to complete my research work. In spite of many commitments she was always ready to help, discuss and guide. In your guidance, I realised that your way of teaching and guidance is unique. I also experienced that your nature is very cool, calm and you have thorough interest in teaching, learning and giving guidance. It is the result of this, that many candidates have successfully completed their research work under your guidance. Thanks a lot again.

I give my special thanks to Maya Bohra Mam, Counsellor, Lakshya Foundation for her continuous help and support in counseling. I am not a professional counsellor. But it was only due to help of Maya didi. I could do counseling successfully. Next I would like to thank my colleague Sunil Gupta, who helped me in my Ph.D. work.

We don't get many occasions to say thanks to our family but today I am going to tell my mother and father, my wife Vasudha Jahagirdar, JRF, School of social science, DAVV, Indore and my little son Atharv, that I acknowledge their loving support and help in this tough task.

All in all it looks like an achievement now which was a big challenge at start!

Thanks everyone.

DEEPAK JAHAGIRDAR
