ACKNOWLEDGEMENT

Words cannot express my immense gratitude to Gracious Huzur Prof. P. S. Satsangi Sahab for the Supreme grace showered on me during the whole period of my doctoral work, internally and externally.

My greatest obligations are for my respected research supervisor and mentor, Prof. K. Hans Raj, who helped me with his proficient guidance, scientific expertise, concern and unfeigned support. He taught me the importance of focus, quality and rigor in research. I remember at this juncture, the kind of motivational uplift, in a very lovable way, he used to render to me all the times when I was all low in my morale. I regard the benevolence and patience in him with which he tolerated all my flaws and continued to encourage me. He is an incredible man of keen scientific and academic acumen and I shall remain in debt to him forever and for all his help during the course of work and for everything that he taught me.

My next obligation goes to my co-supervisor Prof. M. P. Gupta, IIT Delhi who has been an inspirational source for me throughout the course of study. He is a man of great academic brilliance. The way he confronts the challenges and does work in real agility, are the characteristics which I have imbibed from him.

I am extremely grateful to Prof. P. K. Kalra, Director, D.E.I. and Prof. Anand Mohan, Registrar, D.E.I. for their encouragement, support and blessings all through the research work.

I extend my sincere thanks to Prof. Ravinder Kumar, Dean and Head (Faculty of Science) for all the help and support I got from him.

I am extremely thankful and would like to extend sincere gratitude to Prof. V. M. Kumar, Professor Emeritus, D.E.I. for his continued stimulus and trustworthy encouragement to accomplish this titanic task.

I gratefully acknowledge the help of Prof. P. K. Kalra, (IIT-Delhi) and Dr. Antika Thapar, D.E.I., for their kind co-operation and support throughout the work.

I am thankful to Prof. C. Patvardhan, Prof. D. Bhagwan Das (both from Electrical Engineering Dept., D.E.I.), Prof. V. Soami Das (Dept. of Mechanical Engg.), Prof. Gur Saran,
vi

Prof. Gunjan Agrawal, Dr. Kamal Srivastava, Dr. Soumya Sinha, Dr. Richa (all from Dept. of Mathematics, D.E.I.) and Dr. Rajat Setia (USIC, D.E.I.) for their kind help, elderly concern, continuous encouragement and interest for Ph.D. work.

I am grateful to Dr. Zhongyi Hu, China, Mr. Prakhar Mehra (Manager R.S.S. Goushala, Dayalbagh), and Mr. Ninu Saxena, (Assistant Manager, R.S.S. Agriculture Dept., Dayalbagh) for their kind support in providing data.

I would also like to extend my gratitude to Prof. (Mrs.) K. Maharaj Kumari for the support all along.

I am highly thankful to my friends and colleagues Miss. Soniya, Miss. V. Amrita, Dr. Dharna Satsangi, Mrs. Neh, for their candid opinions and remarks offered to me time to time during the research work.

I owe my sincere thanks to Dr. P. K. Sinha, Assistant Registrar (Academic), Mrs. V. Radha, Mrs. Rekha Gogia, and Mrs. Dayal Pyari for their silent support. They were extremely helpful throughout the tenure of Ph.D. and have patiently helped me in solving the administrative problems very quickly and favourably.

My thanks are also due to Shri. Mange Ram, Incharge Central Library, and Shri. P. D. Sharma, Shri Gur Saran, Central Library, D.E.I. for their prompt and active help in checking plagiarism and formatting.

I am also thankful to Mr. Sikander, and Mr. Narendra Singh (Testing Lab, D.E.I.) for helping me when it was most required.

I have no words to express deep gratefulness and profound respect to my mother Smt. V. Dayal Pyari. All the credit goes to her for what I am today. I am also indebted to my parents-in-law Shri. Anoop Kumar Verma and Smt. R. Rani Verma. My elder brother Shri. V. Aswan Kumar and his wife Smt. V. Preeti, for their consistent support and encouragement. I am also thankful to my other family members Mrs. Surat Pyari Gupta, Mr. V. Anhad, Miss V. Ashna, Miss Mahima Gupta, and V Prem Pyari.

I am deeply indebted to my Husband, Mr. Sugandh Verma, for his continuous encouragement and unconditional support throughout the course of research. He was always
there with me and acted as a light house whenever I was baffled in the labyrinthine task of completing Ph.D. I am indeed quite fortunate to have a husband like him. My son, Master Charan Saran Verma and would like to thank him for giving me some joyful moments from time to time which deflated the work pressure.

Astuti, V.
