

CONTENTS

CHAPTER No.	DESCRIPTION	PAGE No.
CHAPTER-I	<i>CHAPTER I-A:-</i> Introduction	1-6
	<i>CHAPTER I-B:-</i> Review	7-13
CHAPTER-II	<i>CHAPTER-II-A:-</i> Oxidation-Reduction, Decarboxylation and Oxidative Decarboxylation	14-23
	<i>CHAPTER-II-B:-</i> Brief introduction about Amino Acids	24-30
	<i>CHAPTER-II-C:-</i> Permanganate as an oxidant,oxidation by permanganate,Oxidation of Amino Acids by other oxidants, Oxidation of Amino Acids by Permanganate	31-51
	<i>CHAPTER-II-D:-</i> Surfactant, Oxidation of different compounds in presence of surfactants,Oxidation of Amino Acids in presence of surfactant	52-73
	<i>CHAPTER-II-E:-</i> Brief discussion on homogeneous acid Catalysis,Different Acidity Functions,Zucker-Hammett Hypothesis, Bunnett Hypothesis, Bunnett-Olsen Hypothesis,Linear Free Energy Relationship,Hammett Taft Equation	74-82
	<i>CHAPTER-II-F:-</i> Salt Effect ,Specific Ionic Effect,Catalysis by Ions and Effect of Surface Area	83-86
CHAPTER-III	<i>CHAPTER-III-A:-</i> Background,Scope and Plan of present Work	87-94
	<i>CHAPTER-III-B:-</i> Experimental Procedure	95-100
CHAPTER-IV	Oxidation of Glycine by Permanganate	101-142
CHAPTER-V	Oxidation of L-Alanine by Permanganate	143-180
CHAPTER-VI	Oxidation of L-Valine by Permanganate	181-224
CHAPTER-VII	Oxidation of L-Leucine by Permanganate	225-272
CHAPTER-VIII	Result and Discussion	273-315
CHAPTER-IX	Summary	316-317
	Publications	318-319
