

List of Figures

Figure 1.1: Motivational factors.....	4
Figure 1.2: Major challenges	5
Figure 1.3: The learning process.....	8
Figure 1.4: Thesis organization.....	10
Figure 2.1: Conceptual view of elements contributing to personalization.....	16
Figure 2.2: Characteristics of learning in the digital era.....	54
Figure 2.3: Lev Vygotsky’s zone of proximal development (ZPD)	57
Figure 2.4: ZPD and Scaffolding	58
Figure 2.5: Csikszentmihalyi’s concept of flow	60
Figure 3.1: Possible dimensions of quality for a learning object.....	66
Figure 3.2: For the query <i>articles</i> in English grammar, text file snippet after scraping	74
Figure 3.3: Proposed Architecture of a Web Scraper	79
Figure 3.4: Extraction of HTML webpage contents to a text file	80
Figure 4.1: A Proposed framework for eLearning using publicly harvested learning objects.....	106
Figure 4.2: Cells contain textual and video learning objects	107
Figure 5.1: Interface to Graded Learning Resources	114
Figure 5.2: Graph depicting pre & post-trial performance of Control Group (Grammar).....	116
Figure 5.3: Stacked chart depicting pre & post-trial performance of Control Group (Grammar)	116
Figure 5.4: Graph depicting pre & post-trial performance of Experiment Group (Grammar)	118
Figure 5.5: Stacked Lines showing pre & post-trial performance of Experiment Group (Grammar)	119
Figure 5.6: Graph depicting pre & post-trial performance in Control Group (Chemistry).....	124
Figure 5.7: Stacked chart depicting pre & post-trial performance of Control Group (Chemistry).....	125
Figure 5.8: Learning interface assisted by scaffolding	126
Figure 5.9: Graph depicting pre & post-trial performance of Experiment Group (Chemistry)	128
Figure 5.10: Stacked Lines showing pre & post-trial performance of Experiment Group (Chemistry)...	128
