

Acknowledgements

All praises belong to Almighty God, the most powerful, the most merciful, the most beneficent and the most kind for giving me the opportunity, courage and energy to carry out and complete the entire thesis work.

It is my proud privilege to express my sincere thanks and deep sense of gratitude to my supervisor, Prof. Sushil Kumar for his invaluable guidance, sheer supervision and continuous support in pursuance of this work. I could not have imagined a better advisor and mentor for the Ph.D. programme.

I owe my special thanks to respected Prof. Praveen Aghamkar, Chairperson, Department of Physics for his whole-hearted cooperation and support. I am very thankful for his encouragement and for the facilities provided to carry out research work in the department. I would also like to thank all the faculty members of Physics department: Dr. (Mrs.) Rachna, Dr. Dharamvir Singh and Dr. Ram Maher Singh and other staff members for their kind help and support throughout.

I gratefully acknowledge Hon'ble M. Husain, formerly Vice Chancellor, M. J. P. Rohilkhand University, Barielly and formerly Professor of Physics at Jamia Millia Islamia, New Delhi. My heartfelt thanks to Dr. D. Amarnatha Reddy, Department of Chemistry, Pusan National University, South Korea for his selfless support and generous help. My sincere thanks to Dr. Avshish Kumar, Department of Physics, Jamia Millia Islamia, New Delhi for his help and constant support. I also owe a great debt of my gratitude to Dr. Bhushan Monga for his constant inspiration and moral support throughout my study.

The financial assistance from University Grant Commission, New Delhi in the form of major research project no. F. 42-803/2013(SR) dated 25-03-2013 is gratefully acknowledged.

My study would have been impossible without the immense support of my family. I am grateful to my mother for her unflagging love, unflinching support and for

providing me enough time and strength to overcome all the hurdles in my life. I am thankful to my In-laws for their care and love and for providing me enough time and strength to overcome all the hurdles in my research career after my marriage. I am also indebted to my fatherlike, Sh. Mahinder Nath Huria and Sh. Som Nath Dhamija for their blessings and support throughout my life. You truly are wonderful and you always hold a special place in my thoughts and in my heart. My deepest thanks to my husband, Rahul. I am thankful to him for always being on my side, for sharing my dreams and for being delighted with my achievements. I appreciate my baby, my little girl Aparna for abiding my ignorance and the patience she showed during my thesis writing. Words would never say how grateful I am to them. I owe a very imported debt to my sister-in-law by relation but a caring sister by heart, Mrs. Parul Huria who took care of me and my daughter while completing this work, I am thankful to Mrs. Sneha Dhamija and Mrs. Astha Huria for their support and help. I am also indebted to my brothers Sheetal Huria, Ujjwal Huria, Dhawal Paramjeet Singh and Dheeraj Interjeet Singh for their affection, encouragement and support. I consider myself the luckiest in the world to have such a loving and caring family, standing beside me with their love and unconditional support.

It gives me great pleasure to thank my friends Saruchi, Bharti, Meenakshi, Rajni and Indu who stood by me whenever I needed their help.

Finally, I would like to thank everybody who directly or indirectly supported me for the successful realization of Ph. D. degree.
