

LIST OF FIGURES

Figure No	Figure Title	Page No
3.1 – 3.8	Task specific training involving sit to stand activity	93-94
3.9 – 3.27	Task specific training involving activities in standing	95-99
3.28 – 3.37	Task specific training involving activities in walking	100-102
3.38 – 3.43	Task specific involving activities in stair climbing	102-103
3.44 – 3.57	Basic action concepts –to facilitate motor representation for sit – to stand activity	109-111
3.58 – 3.67	Basic action concepts – to facilitate motor representation for stand to sit activity	111-113
3.68 – 3.75	Basic action concepts – Motor representation for walking (Gait cycle)	113-114
3.76 – 3.89	Basic action concepts – Motor representation for stair climbing	115-117
3.90	Baseline push pull dynamometer, fabrication enterprises, New York, USA	124
3.91 – 3.96	Measurement of Isometric muscle strength using Hand Held Dynamometer	127-128
3.97	Schematic Representation of 10-meter walk test	129
5.1	CONSORT 2010 Flow Diagram	133

LIST OF GRAPHS

Graph No	Graph Title	Page No
5.1	Comparison of Median scores of FGA in the physical practice and physical plus mental practice groups across time measurements	145
5.2	Comparison of Median scores of BBS in the physical practice and physical plus mental practice groups across time measurements within the groups	147
5.3	Pre-Post comparison of Mean change scores in percentage for paretic lower extremity muscle groups	151
5.4	Pre-Follow up comparison of Mean change scores in percentage for paretic lower extremity muscle groups	151
5.5	Comparison of Mean score of Gait speed in the physical practice and physical plus mental practice groups across time measurements	154
5.6	Comparison of Median score of SIS-16 in the physical practice and physical plus mental practice groups across time measurements	157
