

LIST OF FIGURES

Figure No.	Figure Title	Page No.
1.1	Location map of the study area (Udupi taluk)	6
1.2	Synoptic view of the study area as viewed by the LISS III sensor of IRS-1C satellite	7
1.3	Shows the geological/lithological thematic map depicting the various rock types of the study area	8
1.4	Average temperature variations for Udupi during 2000-2012	10
1.5	Graph showing monthly precipitation at Udupi during 2000-2012	12
2.1	LANDSAT 7 ETM+ satellite imagery	20
2.2	ASTER sensor	21
2.3	ASTER spectral bands	21
2.4	Spectral signatures of various cover types	24
2.5	Thermal transmittance curve	25
2.6	Wien Displacement law and emissivity effects	27
2.7	Spectral emissivity of a blackbody, a gray body, and a hypothetical selective radiator	29
2.8	Emissivities of minerals and of various common materials	30
2.9	Selective radiator minerals	30
2.1	Emissivities of sand, soil, water, asphalt	30
2.11	Urban heat island phenomenon	39
3.1	Cartosat-1 satellite stereo data of Udupi and adjoining areas	47
3.2	MODIS data of the study area (29/03/2000)	48
3.3	MODIS data of the study area (30/03/2006)	49
3.4	MODIS data of the study area (29/03/2012)	50
3.5	MODIS data of the study area (30/03/2014)	51
3.6	MODIS data of the study area (13/03/2000)	52
3.7	MODIS data of the study area (14/03/2014)	53
3.8	LANDSAT-7 data (14/03/2000) of the study area in natural colour and thermal band	55
3.9	LANDSAT-8 data (13/03/2014) of the study area in natural colour and thermal band	55

Figure No.	Figure Title	Page No.
3.1	Flow chart showing the methodology adopted for the study	62
3.11	NDVI algorithm	66
4.1	Shows the AOI of LANDSAT-8 satellite imagery of the study area of Udupi taluk	75
4.2	Flow chart showing the methodology adopted for the development of LU/LC maps	76
4.3	Flow chart showing the methodology adopted for the study of change in LU/LC pattern	79
4.4	LU/LC map of Udupi taluk for the year 2000	80
4.5	LU/LC map of Udupi taluk for the year 2006	81
4.6	LU/LC map of Udupi taluk for the year 2010	82
4.7	Pie chart indicating the distribution of each class of LU/LC for 2000	84
4.8	Pie chart indicating the distribution of each class of LU/LC for 2006	85
4.9	Pie chart indicating the distribution of each class of LU/LC for 2010	86
4.1	Graphical representation of LU/LC change detection	87
4.11	LU/LC map of Udupi city area during the year 2000	89
4.12	LU/LC map of Udupi area during the year 2006	90
4.13	LU/LC map showing urban area of Brahmavara region during the year 2006	90
4.14	LU/LC map showing urban areas of Padubidri region during the year 2006	91
4.15	LU/LC map of Udupi and Manipal city limits in 2006	91
4.16	Showing the urbanization in and around Manipal	92
4.17	DTM of Manipal city developed by CARTOSAT-1 satellite stereo image showing urbanization (Source: Lokesh et al., 2011)	93
4.18	Shows the agriculture fields in the study area	93
4.19	Thematic map showing the agricultural lands nearby Padubidri city limits	94
4.20	Showing the Fallow land in the foreground and Coconut plantation in the background	95

Figure No.	Figure Title	Page No.
4.21	LU/LC map showing the Agricultural lands in and around Padubidri	95
4.22	Showing thick Forests in the background	96
4.23	Thematic map showing the evergreen/semi-evergreen forest in 2006	96
4.24	Thematic map showing the evergreen/semi-evergreen forest in 2010	96
4.25	Showing Degraded land in and around Udupi taluk during 2006	97
4.26	Thematic map showing Degraded land in and around of study area	97
4.27	Thematic map showing Degraded land in and around of study area	97
4.27	LU/LC map showing the Sandy areas near the coastal belt	95
4.28	Showing the River island near the coastal belt	98
4.29	LU/LC map showing the Sandy areas near the coastal belt	98
4.30	Showing the Barren rocky and noticed quarried sites	99
4.31	Thematic map showing Barren rocky areas near Alevoor-Manipal Showing the Barren rocky and noticed quarried sites	99
4.32	Showing the River in the foreground and Forest land in the background	100
4.33	LU/LC map showing the River basins of study area	100
4.34	LU/LC types of Udupi taluk during 2000 (LANDSAT-7)	103
4.35	Pie chart showing the distribution of LU/LC classes during 2000 based on LANDSAT-7 satellite data	104
4.36	LU/LC types of Udupi taluk during 2014 (LANDSAT-8)	105
4.37	Pie chart showing the distribution of LU/LC classes during 2014 based on LANDSAT-8 satellite data	106
4.38	Built-up change (Source: Report of CES, IISc)	107
4.39	Built-up area during 1987 and Builtup area during 1999 (Source: Report of CES, IISc)	108
4.40	False Colour Composite and classified image-IRS LISS of 1999 (Source: Report of CES, IISc)	108
5.1	Temperature variations with spatial extent during 2000 on regional scale (Day)	110

Figure No.	Figure Title	Page No.
5.2	Temperature variations with spatial extent during 2006 on regional scale (Day)	110
5.3	Temperature variations with spatial extent during 2012 on regional scale (Day)	111
5.4	Temperature variations with spatial extent during 2014 on regional scale (Day)	111
5.5	Temperature variations with spatial extent during 2000 with temperature range 300-330K	112
5.6	Temperature variations with spatial extent during 2006 with temperature range 300-330K	112
5.7	Temperature variations with spatial extent during 2012 with temperature range 300-330K	113
5.8	Temperature variations with spatial extent during 2014 with temperature range 300-330K	113
5.9	Temperature variations with spatial extent during 2000 with temperature range 303-313K	114
5.10	Temperature variations with spatial extent during 2006 with temperature range 303-313K	114
5.11	Temperature variations with spatial extent during 2012 with temperature range 303-313K	115
5.12	Temperature variations with spatial extent during 2014 with temperature range 303-313K	115
5.13	Temperature variations with spatial extent during 2000 with temperature range 303-308K	116
5.14	Temperature variations with spatial extent during 2006 with temperature range 303-308K	116
5.15	Temperature variations with spatial extent during 2012 with temperature range 303-308K	117
5.16	Temperature variations with spatial extent during 2014 with temperature range 303-308K	117
5.17	Temperature variations with spatial extent during 2000 on regional scale (Night)	118
5.18	Temperature variations with spatial extent during 2006 on regional scale (Night)	119
5.19	Temperature variations with spatial extent during 2012 on regional scale (Night)	119

Figure No.	Figure Title	Page No.
5.20	Temperature variations with spatial extent during 2014 on regional scale (Night)	120
5.21	Temperature variations with spatial extent during 2000 with temperature above 294K	120
5.22	Temperature variations with spatial extent during 2006 with temperature above 294K	121
5.23	Temperature variations with spatial extent during 2012 with temperature above 294K	121
5.24	Temperature variations with spatial extent during 2014 with temperature above 294K	122
5.25	Temperature variations with spatial extent during 2000 with temperature range 290-297K	122
5.26	Temperature variations with spatial extent during, 2006 with temperature range 290-297K	123
5.27	Temperature variations with spatial extent during 2012 with temperature range 290-297K	123
5.28	Temperature variations with spatial extent during 2014 with temperature range 290-297K	124
5.29	Day time temperature of Padubidri integrated with Google Map of 2006 (Source: Google Server)	124
5.30	Night time temperature of Padubidri integrated with Google Map of 2006 (Source: Google Server)	125
5.31	Day time temperature of Padubidri integrated with Google Map of 2010 (Source: Google Server)	125
5.32	Temperature variations during day for the years 2000, 2006, 2012 and 2014 based on MODIS data (Day)	127
5.33	Temperature variations during night for the years 2000, 2006, 2012 and 2014 based on MODIS data (Night)	127
5.34	Temperature variations with spatial extent during 2000 with temperature range 299-327K	129
5.35	Temperature variations with spatial extent during 2000 with temperature range 303-313K	130
5.36	Temperature variations with spatial extent during 2000 with temperature range 303-308K	130
5.37	Temperature variations with spatial extent during 2000 with temperature range 294-302K	131

Figure No.	Figure Title	Page No.
5.38	Temperature variations with spatial extent during 2000 with temperature range 290-297K	131
5.39	Temperature variations with spatial extent during 2014 with temperature range 299-327K	132
5.40	Temperature variations with spatial extent during 2014 with temperature range 303-313K	132
5.41	Temperature variations with spatial extent during 2014 with temperature range 303-308K	133
5.42	Temperature variations with spatial extent during 2014 with temperature range 293-302K	133
5.43	Temperature variations with spatial extent during 2014 with temperature range 290-297K	134
5.44	Temperature variations with spatial extent during 2000 of Udupi- Manipal region	134
5.45	Temperature variations (290-322K) with spatial extent during 2000 nearby Udupi city	135
5.46	Temperature variations (267-320K) with spatial extent during 2014 of Udupi- Manipal region	135
5.47	Temperature variations (290-320K) with spatial extent during 2014 of Udupi- Manipal region	136
5.48	Temperature variations (303-320K) with spatial extent during 2014 of Udupi- Manipal region	136
5.49	Udupi-Manipal region during 2000, 2006 and 2014 (Source: Google earth)	137
5.50	Udupi surroundings in 2000, 2006, 2010 and 2014 (Source: Google earth)	137
5.51	Udupi region during 2000, 2010 and 2014 (Source: Google earth)	137
5.52	Udupi region 2006, 2010, and 2014 (Source: Google earth)	137
5.53	Manipal area near Vidyaratnanagar during 2000, 2006, 2010 and 2014 (Source: Google earth)	138
5.54	Manipal area during 2000, 2010 and 2013 (Source: Google earth)	138
5.55	Industrial area in 2000, 2010 and 2013 (Source: Google earth)	138
5.56	Madhavanagar during 2006, 2010 and 2013 (Source: Google earth)	138

Figure No.	Figure Title	Page No.
5.58	Manipal Perampalli area in 2000 and 2014 (Source: Google earth)	139
5.59	Temperature variations with spatial extent during 2000 nearby Brahmavara city limits	139
5.60	Temperature variations (290-322) with spatial extent during 2000 nearby Brahmavara city limits	139
5.61	Temperature variations with spatial extent during 2014 of Brahmavara region	140
5.62	Temperature variations (290-320) with spatial extent during 2014 nearby Brahmavara city limits	140
5.63	Temperature variations (303-320) with spatial extent during 2014 nearby Brahmavara city limits	141
5.64	Brahmavara region during 2000, 2010 and 2013 (Source: Google earth)	142
5.65	Temperature variations with spatial extent during 2000 nearby Padubidri city limits	142
5.66	Temperature variations (290-322K) with spatial extent during 2000 nearby Padubidri city limits	142
5.67	Temperature variations with spatial extent during 2014 nearby Padubidri city limits	143
5.68	Temperature variations (290-320K) with spatial extent during 2014 nearby Padubidri region	143
5.69	Temperature variations (303-320) with spatial extent during 2014 nearby Padubidri city limits	144
5.70	Padubidri region during 2000, 2006, 2010 and 2014 (Source: Google earth)	144
5.71	Padubidri thermal power plant region during 2000, 2006, 2010 and 2014 (Source: Google earth)	145
5.72	Thematic map of Udupi taluk during 2000 showing NDVI values (range -0.59 to 0.49)	145
5.73	Thematic map of Udupi taluk during 2000 showing NDVI values (range -0.29 to 0.29)	146
5.74	Thematic map of Udupi taluk during 2000 showing NDVI values (range 0.01 to 0.49)	147
5.75	Thematic map of Udupi taluk during 2014 showing NDVI values range (0.00 to 0.43)	148

Figure No.	Figure Title	Page No.
5.76	Thematic map of Udupi taluk during 2014 showing NDVI values (range -0.07 to 0.43)	149
5.77	Thematic map of Udupi taluk during 2014 showing NDVI values (range -0.08 to 0.49)	150
5.78	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (low gain) satellite data with temperature range 273-302K	151
5.79	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (low gain) satellite data with temperature range 280-302K	152
5.80	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (low gain) satellite data with temperature range 290-302K	153
5.81	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (high gain) satellite data with temperature range 280-315K	155
5.82	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (high gain) satellite data with temperature range 303-313K	156
5.83	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (high gain) satellite data with temperature range 303-308K	157
5.84	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 10) satellite data with temperature range 300-318K	158
5.85	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 10) satellite data with temperature range 303-313K	159
5.87	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 10) satellite data with temperature range 303-308K	160
5.88	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 11) satellite data with temperature range 280-313K	161
5.89	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 11) satellite data with temperature range 300-313K	162

Figure No.	Figure Title	Page No.
5.90	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 11) satellite data with temperature range 303-313K	163
5.92	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 11) satellite data with temperature range 303-308K	164
5.93	Emissivity variations during 2000 and 2014	166
5.94	NDVI variations during 2000, 2006 and 2014	167
5.95	Temperature variations during 2000 and 2014	
6.1	Surface, air and measured temperature variations of various stations during 2000	175
6.2	Surface, air and measured temperature variations of various stations during 2006	175
6.3	Surface, air and measured temperature variations of various stations during 2012	176
6.4	Surface, air and measured temperature variations of various stations during 2014	176
6.5	Map of Udupi taluk during 2000 showing NDVI values (range -0.59 to 0.49)	179
6.6	Map of Udupi taluk during 2014 showing NDVI values (range -0.59 to 0.49)	180
6.7	Temperature variations with spatial extent during 2000 of Udupi taluk using LANDSAT 7 (high gain) satellite data with temperature range of 303-313K	181
6.8	Temperature variations with spatial extent during 2014 of Udupi taluk using LANDSAT 8 (band 10) satellite data with temperature range of 300-318K	182
6.9	LST map covering Udupi-Manipal region in 2000	186
6.10	LST map along with LU/LC Udupi-Manipal region in 2000	187
6.11	LST map Udupi-Manipal region in 2014	188
6.12	LST variations during 2000 and 2014 in and around Manipal	189
6.13	NDVI variations during 2000 and 2014 in and around Manipal regions	190
6.14	LST variations during 2000 and 2014 in and around Udupi/Manipal, Padubidri regions	191

Figure No.	Figure Title	Page No.
6.15	NDVI variations during 2000 and 2014 in and around Udupi/Manipal, Padubidri regions	192
6.16	Field survey at Udupi bus stop and Brahmagiri	193
6.17	Field survey at various places of Manipal Industrial area, Vidyaratna Nagar, Syndicate Circle, Kunjibettu, MGM-Kunjibettu	193
6.18	LST map in and around Padubidri region in 2000	194
6.19	LST map of Padubidri region in 2014	195
6.20	Field survey thermal power plant near Padubidri and Barren rocky near nandikuru	195
6.21	LST map of Kaup and surrounding regions in 2000	196
6.22	LST map of Kaup and surrounding regions in 2014	197
6.23	LST variations during 2000 and 2014 in and around Kaup, Brahmavara regions	198
6.24	NDVI variations during 2000 and 2014 in and around Kaup, Brahmavara regions	199
6.25	Field survey of Crop land near Kaup	200
6.26	LST map in and around Brahmavara region in 2000	200
6.27	LST map in and around Brahmavara region in 2014	201
6.28	LST variations during 2000 and 2014 in rural regions.	202
6.29	NDVI variations during 2000 and 2014 in rural regions	203
6.30	LST thematic map of eastern Manipal rural region in 2000	204
6.31	LST thematic map of eastern Manipal rural region in 2014	205
6.32	LST variations during 2000 and 2014 in rural regions	206
6.33	NDVI variations during 2000 and 2014 in rural regions	207
6.34	LST variations during 2000 and 2014 in rural regions	208
6.35	NDVI variations during 2000 and 2014 in rural regions	209
6.36	Forest cover at Guddeangadi near Hiriyadka and Mixed plantation at Parkala, Manipal	209
6.37	LST variations during 2000 and 2014 in rural regions	210
6.38	NDVI variations during 2000 and 2014 in rural regions	211
6.39	LST variations during 2000 and 2014 in rural regions	212
6.40	NDVI variations during 2000 and 2014 in rural regions	213

Figure No.	Figure Title	Page No.
6.41	LST variations during 2000 and 2014 in rural regions	214
6.42	NDVI variations during 2000 and 2014 in rural regions	215
6.43	LST variations during 2000 and 2014 in rural regions	216
6.44	NDVI variations during 2000 and 2014 in rural regions	217
6.45	LST variations during 2000 and 2014 in rural regions	218
6.46	NDVI variations during 2000 and 2014 in rural regions	219
6.47	LST variations during 2000 and 2014 in rural regions	220
6.48	NDVI variations during 2000 and 2014 in rural regions	221
6.49	LST variations during 2000 and 2014 in rural regions	222
6.50	NDVI variations during 2000 and 2014 in rural regions	223
6.51	Aerial view of Google image of Manipal city around 2.5 sq.km area with street view of buildings during 2014	228
6.52	LST distribution map of Manipal city during 2014	228
6.53	Aerial view of Google image of Udupi city around 4sq.km area with street view of buildings during 2014	229
6.54	LST distribution map of Udupi city during 2014	230
6.55	Aerial view of Google image of Padubidri region around 5sq.km area of coal based thermal power plant along with street view during 2014	231
6.56	LST distribution map of Padubidri region during 2014	231
