Chapter 1 Introduction 1 - 45

1.1 Introduction to Insurance Service 1
1.1.1 History of Insurance in India 2
1.1.2 Principles of Insurance 5
1.1.3 Types of Insurance 10
1.1.4 Key components of Insurance regulations in India 18
1.1.5 Distribution Channels 21
1.1.6 Grievance Redressal Mechanism 28
1.1.7 Role of Data Analytics 32
1.2 Objective of this research 36
1.3 Hypothesis of this research 40
1.4 Relevance of this research 43
Chapter 2  Review of Literature  46 - 58

  2.1 Insurance  46
  2.2 Insurance needs  48
  2.3 Insurance need determination  48
  2.4 Risk management  50
  2.5 Insurance penetration  52
  2.6 Performance of Insurance services in India  54
  2.7 Insurance gaps  56
  2.8 Data mining  58

Chapter 3  Research Methodology  59 - 82

  3.0 Summary  59
  3.1 Data mining approach  62
  3.2 Statistical hypothesis testing vs data mining  66
  3.3 Ten questions questionnaire  69
  3.4 Sampling and sample selection  74
  3.5 Association mining using Apriori algorithm  78

Chapter 4  Questionnaires and Data Mining Parameters  83 - 92

  4.0 Summary  83
  4.1 Preliminary study and questionnaires design  84
      4.1.1 Insured/ Insurance seekers (Corporate)  85
      4.1.2 Insured/ Insurance seekers (Individual)  86
Chapter 5  Findings, Analyses and Conclusions  

5.0 Summary  
5.1 Summarized responses  
5.1.1 Summarized responses on questions of TQQ for Insured/ Insurance seekers (Corporate)  
5.1.2 Summarized responses on questions of TQQ for Insured/ Insurance seekers (Individual)  
5.1.3 Summarized responses on questions of TQQ for Insurers/ Insurance professionals  
5.2 Strong associations  
5.3 Hypothesis  
5.4 Conclusion  
5.5 Suggestions and recommendations  
5.6 Limitations  
5.7 Scope for further work
