

LIST OF TABLES

Table	Page
5.1 Contingency Table	104
6.1 Mean Values of the Attribute	118
6.2 Mean Squared Error Values of the Attributes	119
6.3 Weight Values of the Selected Attributes	121
6.4 Evaluation Measures of Naive Bayes Classifier	123
6.5 Evaluation Measures of the Multilayer Perceptron Classifier	125
6.6 Comparison of the Naive Bayes and Multilayer Perceptron Classifiers in the Simulated Relief Algorithm	127
7.1 Weight Values of the Attributes in Relief Algorithm	129
7.2 Evaluation Measures of the Relief algorithm Using Naive Bayes Classifier	131
7.3 Classification Accuracy of the Relief Algorithm Using Multilayer Perceptron Classifier	133
7.4 Comparison of Naive Bayes and Multilayer Perceptron Classifier in Relief Algorithm	135
7.5 Comparison of Accuracy Measures of the Simulated Relief and Relief Algorithms Using Multilayer Perceptron Classifier	136
7.6 Comparison of Simulated Relief and Relief Algorithms Using two Classifiers viz., Naive Bayes and Multilayer Perceptron	137

LIST OF FIGURES

Figure		Page
3.1	General Feature Selection Procedure	32
3.2	Filter Approach in Feature Selection	38
3.3	Wrapper Approach in Feature Selection	39
3.4	Hybrid Approach in Feature Selection	39
3.5	Dimensionality Reduction Process	41
3.6	Plot of 50 Observation on two Variables p,q	42
3.7	Transformed Datasets of Fig 3.6	42
4.1	Transformation of Fitness into Energy	61
5.1	Logistic Regression	99
5.2	Multilayer Perceptron	100
6.1	Work Flow of Simulated Relief Algorithm	110
6.2	Pre process Panel	113
6.3	Classifier Panel	114
6.4	Attribute Panel	115
6.5a	Visualize Panel	115
6.5b	Visualize Panel	116
6.6	Mean Values of Attributes	119
6.7	Graphical Representation of Mean Squared Error Values of Attribute	120
6.8	Graphical Representation of Weight of the Attributes	121
6.9	Screen Shot of Ranked Attributes in the Weka Explorer	122
6.10	Classification of Pests using Naive Bayes Classifier	123
6.11	Screen Shot of Weka Explorer Representing Classification Accuracy of Naive Bayes Classifier	124
6.12	Evaluation Measures of Simulated Relief Algorithm Using Naive Bayes Classifier	124

6.13	Classification of Instances using Multilayer Perceptron Classifier	125
6.14	Classification Accuracy of Simulated Relief Using Multilayer Perceptron Classifier	126
6.15	Graphical representation of Classification Accuracy of Simulated Relief Using Multilayer Perceptron Classifier	126
6.16	Comparison of Naive Bayes and Multilayer Perceptron Classifier in the Simulated Relief Algorithm	127
7.1	Weights values of the Attributes Computed by Relief Algorithm	130
7.2	Weka Explorer Screen for the Ranked Attributes in Relief Algorithm	130
7.3	Chart Representation of Classification of Instances in Relief Algorithm using Naive Bayes Classifier	131
7.4	Screen Shot of the Classification Accuracy of Relief Algorithm Using Naive Bayes Classifier	132
7.5	Evaluation Measures of Classification Accuracy of Relief Algorithm Using Naive Bayes Classifier	132
7.6	Classification of Instances in Relief Algorithm Using Multilayer Perceptron Classifier	133
7.7	Screen Shot of Classification of Relief Algorithm Using Multilayer Perceptron Classifier	134
7.8	Graph Representation of Classification Accuracy of the Relief Algorithm Using Multilayer Perceptron Classifier	134
7.9	Comparison of the Naive Bayes and Multilayer Perceptron Classifiers in the Relief Algorithm	135
7.10	Comparisons of the Evaluation Measures of Relief and Simulated Relief Using Multilayer Perceptron Classifier	136
7.11	Graph Representations of the Comparisons of Simulated Relief and Relief Algorithms	137
