# Table of Contents

**Chapter 1: A Broad Overview**

1.1 Introduction ................................................................. 1  
1.2 Estimation of the agricultural TFP index .......................... 3  
1.3 Constructing a multi-dimensional Health Index ................. 5  
1.4 Health and agricultural TFP ............................................. 7  

**Chapter 2: Estimating Total Factor Productivity in Indian Agriculture**

2.1 Introduction ....................................................................... 10  
2.2 Approaches to measuring productivity ......................... 11  
2.2.1 Growth accounting .................................................... 12  
2.2.2 Index number approach to measuring productivity ........ 13  
2.2.3 The econometric approach to productivity measurement 15  
2.2.4 A distance function based approach ............................. 16  
2.3 Literature Review ............................................................ 17  
2.4 Methodology ................................................................. 22  
2.4.1 Distance functions ....................................................... 23  
2.4.2 Data Envelopment Analysis ......................................... 26  
2.4.3 Malmquist TFP Index .................................................. 28  
2.4.4 The Sequential Malmquist TFP Index ............................ 34  
2.5 Data ............................................................................. 41  
2.6 Results ......................................................................... 45  
2.6.1 TFP Performance (including Bihar and Kerala) ............. 46  
2.6.2 TFP Results (excluding Bihar and Kerala) ...................... 54  
2.7 Contemporaneous and Sequential Malmquist TFP Index - A Comparison of Results ............................................. 57  
2.8 Summing up ................................................................. 59  

Appendix 2A ........................................................................ 61
Chapter 3: Health in India: Towards a Better Health Index

3.1 Introduction

3.2 Health production function

3.2.1 Health Outcomes

3.2.2 Determinants of Health

3.2.3 Health Index

3.3 Health Policy in India

3.4 Literature Review

3.4.1 Literature Review – Determinants of Health

3.4.2 Literature Review – Health outcomes

3.4.3 Literature Review – State of health in India

3.5 Towards Constructing a Health Index

3.5.1 Material Access Index

3.5.2 Health Infrastructure Index

3.5.3 Health Care Utilization Index

3.6 Methodology – Principal Components Analysis

3.7 Results

3.8 Comparison of Health Index with other health indicators

3.9 Summing up

Appendix 3A

Chapter 4: Agricultural Productivity Growth and Health

4.1 Introduction

4.2 Relationship between Health and Agricultural Productivity

4.2.1 Impact of health on agricultural productivity

4.2.2: Impact of agricultural productivity on health

4.3 Impact of health

4.3.2 Impact of productivity/income on health

4.4 The Model

4.5 Methodology

4.5.1 Arellano-Bover/Blundell-Bond dynamic panel system GMM estimator
