Acknowledgement

It is a moment of gratification and pride to look back with a deep sense of contentment and gratitude at the long traveled path, to be able to capture some of the finest moments, to be able to thank the infinite number of people, some who were with me from the beginning and some who joined me later, whose love and blessing have made this day possible for me. First of all I want to pay thanks to God for his blessing.

With pride and immense pleasure I record my deepest appreciation and profound gratitude to my learned and distinguished Guide Prof. (Dr.) S.S. Agrawal, Founder Director, DIPSAR and presently serving as Pro Vice-Chancellor, Amity University for his untiring efforts, which have cultivated in the form of thesis. He is one who showed me the light in the darkness of ignorance and helped me to carry out my project work successfully. He has always gone out of his way to remove all the obstacles that have ever crossed my path. He has been a guide who made me decide to go with the work and pursue my area of interest. I must avow my sincere gratitude and indebtedness to him for his constant encouragement at every stage of this work. His valuable advice, pertinent suggestions and constructive criticism have channeled my vision to the varied scientific problems and have helped me in giving this study a final shape. It is my privilege to have worked under him. He is my ideal and I shall be indebted to my honorable guide throughout my life.

I would like to convey my special regards to Dr. V.K. Vinayak, President Panacea Biotec R&D, for his constant encouragement at every stage of this work. His valuable advice, pertinent suggestions, innovative ideas and constant encouragement have channeled my vision to the varied scientific problems and have helped me in giving this study a final shape which added to the standard of this thesis.
I wish to sincerely thank Dr. S. Prasad, Senior scientist, Panacia Biotec R & D, for his invaluable help, which led to the successful completion of this research work.

I wish to sincerely thank Prof. Fakhrul Islam, Head, Department of Toxicology, Jamia Hamdard, New Delhi for his invaluable help, which led to the successful completion of this research work.

I convey my thanks to all the staff members (teaching and non-teaching) of DIPSAR for their constant help and cooperation at all stages of my work.

I convey my thanks to all the Scientists of Panacea Biotec R & D, for their constant help and cooperation at all stages of my work.

Friends are always there for you and they directly or indirectly have a big hand in success of your work. Some name is worth mentioning, Ashok Kumar, Sumeet Gullaiya, Varun Singh, Ashish Nagar, Avinas Sachan, Ashish Mishra, Abhinav Mishra, Arpit Katiyar and my loving juniors.

I would like to acknowledge Department of Training and Technical Education, Government of NCT Delhi for the funding assistance.

I express my heartiest gratitude to my parents for their understanding, constant support, and Encouragement. I would also like to thank my mother Dr. Mradula Dubey, brother Vaibhav Dubey & my sister Monica Dubey.
I must express the deepest gratitude to my wife, Archana (Anju) for her unparallel understanding, constant support, and never ending love. I express my heartiest loving to my daughter Anvisha Dubey (Mahi) and my son Arjun.

I am deeply indebted to all animals whose lives were sacrificed during this research work. I hope that the precious life of the animals used during this project would not be in vain; it would contribute to the development of the science in one way or another.

(VISHAL DUBEY)
