ACKNOWLEDGEMENT

It is believed that one can’t get success without the involvement of others. In the success of a research scholar, the sole part is the mentor. I am very grateful to the almighty that I have been supervised by such a nice and humble mentor who has consistently provided me support and encouragement that led the success in my life in the form of this thesis. I am deeply and sincerely indebted to my mentor, Dr (Mrs) Jasvinder K Gambhir, Professor, Department of Biochemistry, UCMS & GTB Hospital, Delhi for her excellent and meticulous supervision. Her contribution was indispensible in the planning and successful execution of this study. The words are less to express gratitude to my supervisor whose thoughtfulness and encouragement led to this thesis to completion.

I would first like to express sincere thanks and gratitude to my Co-supervisor Dr. (Mrs) Rimi Shukla, Professor, Department of Biochemistry, UCMS and G.T.B Hospital, Delhi. I feel greatly privileged to have worked under her guidance. My words fall short to express sense of deepest gratitude for her keen interest, affection, valuable guidance, support, constant inspiration, encouragement and advice throughout the tenure of this study.

I owe my heart-felt thanks to Dr. Sonal Sharma, Associate Professor, Department of Pathology, UCMS & GTB Hospital, Delhi. She has provided her valuable time and guidance to carry out the histopathology and immunohistochemistry studies.

I am thankful to Mr. Mordhwaj, Senior Technical Assistant, ACBR, University of Delhi (North Campus), who has helped me to carry out the HPLC and The Director, Sophisticated Analytical Instrument Facilities (SAIF), Lucknow & Advanced Instrument Research Facilities (AIRF), JNU, New Delhi, for the purification and identification of active component by special techniques i.e. LCMS, NMR etc.

I am thankful to Mr Piyush Dikshit, Mr Santosh Shukla from Department of Biochemistry, UCMS, and Dr Sayeed, Department of Pharmacy, Jamia hamdard University, Delhi, who has actively supported and helped me to perform Western blotting.
I would like to extend my sincere thanks to the faculty members of Department of Biochemistry, UCMS & GTB Hospital, Delhi namely Prof. Dinesh Puri; HOD, Prof. B D Banerjee, Prof. S B Sharma, Prof A K Tripathi, Dr R L Tripathi, Dr Rafat S Ahmed, Dr Seema, Dr Rajarshi Kar, Dr. Sudip Sen, Dr Mohit Mehdiratta and Dr Archna, they have always helped me in many ways.

Mr Rajiv, Mrs Bhawna and all staff members of Department of Biostatistics, UCMS and G.T.B. Hospital, Delhi deserve many thanks for the excellent statistical analysis and expert suggestions throughout my thesis and preparation of my manuscript.

I extend many thanks to all my friends, lab mates and co-workers namely Dr Shipra, Ms Mohini, Dr Stuti, Dr Reenu, Dr Savidhan, Dr Rahul, Dr Tanzeel, Dr Vivek, Dr Chandra Shekhar, Ms Smita, Mr MD Mustafa, Dr Sudip Datta and Ms Mythily at Department of Biochemistry, UCMS and G.T.B. Hospital, Delhi and Ms Richa, Department of Biochemistry, LHMC, Delhi, for their co-operation, moral support and helpful suggestions throughout the period of my PhD thesis.

My special thanks to the technical staff namely Ms Kiran Anand, Mr Mehdiratta, Mr Jagdesh, Mr Rajendra, Mr Satpal, Mr Prem, Mr Rahul and Mr Ravi in Department of Biochemistry, UCMS and G.T.B. Hospital, Delhi, for providing facilities, reagents and assisting me in carrying out the experiments.

I am very much thankful to Dr Vikas Galaw, Mr SP Dubey and the staff of Central Animal House of UCMS, who have provided me facilities for in vivo research condition.

I am also grateful to ICMR for providing me Senior Research Fellowship and financial assistance during this period of my Ph.D thesis.

My sincere thanks to my respected parents and friends.

Last but not the least I wish to thank all the animals for their selfless and invaluable contribution to my thesis work.

Kirtikar Shukla
