Discipline, determination, focus and patience are the words that come to mind when we deal with Science and Technology. Areas of research in Science and Technology control the growth and development of human beings and we feel proud that we are working in the field of Science and Technology, due to Blessings of **Almighty God**. First of all I would like to thank Him, because only due to His grace I was able to complete this Thesis successfully.

I shall be lacking in my duties unless I put into words my gratitude and humbleness to Honorable Vice Chancellor, **Prof. (Dr.) R. B. I also express my special thanks to **Mr. Pradeep Kumar Yadav**, research scholar at Pondicherry University, Tamil naidu and my friends for their help and cooperation.

I find no such measure, adequate to quantify, all that my **Parents** has done for me. Words with me are insufficient to express the feeling of my heart to acknowledge them for educating me and keeping me in all comfort without which this work would not have seen the light of the day at all.
