2.1	Capital Flows to India.....	15
2.2	Composition of Capital Flows to India	16
5.1	Descriptive statistics for variables in Model 1	83
5.2	Descriptive statistics for variables in Model 2	84
5.3	Correlations between variables	84
5.4	Correlations between real exchange rate and components of net capital flows	85
5.5	Results of Unit Root Tests	85
5.6	ARDL Estimates for Model 1	88
5.7	Estimated Long Run Coefficients using the ARDL Approach Model 1	89
5.8	Error Correction Representation for the Selected ARDL Model for Model 1	90
5.9	Autoregressive Distributed Lag Estimates Model 2 (SBC)	92
5.10	Autoregressive Distributed Lag Estimates for Model 2 (AIC)	93
5.11	Estimated Long Run Coefficients for Model 2 using the ARDL Approach (SBC)	95
5.12	Estimated Long Run Coefficients for Model 2 using the ARDL Approach (AIC)	95
5.13	Error Correction Representation for the Selected ARDL Model for Model 2	96
5.14	Test Statistics and Choice Criteria for Selecting the Order of the VAR Model	99
5.15	Generalized Variance Decompositions for the Variable REER	100
5.16	Test Statistics and Choice Criteria for Selecting the Order of the VAR Model	104
5.17	Generalized Variance Decompositions for the variable REER in Model 2	105
6.1	Summary Statistics of Real Exchange Rate Volatility Measures	111
6.2	Summary Statistics of Net Capital Flow Volatility Measures	112
6.3	Summary Statistics of FDI Flow Volatility Measures	112
6.4	Summary Statistics of Portfolio Flow Volatility Measures	112
6.5	Summary Statistics of Debt Creating Flow Volatility Measures	113
6.6	Summary Statistics of Other Capital Flow Volatility Measures	113
6.7	Results of Unit Root Test for Volatility Variables	120

6.8	Results of the Pair wise cointegration Tests for GARCH based volatility measures	123
6.9	Results of the Pair Wise cointegration Tests for SD based volatility measures	124
6.10	Granger Causality Tests for ARCH based volatility Estimates	125
6.11	Granger Causality Tests for GARCH based volatility Estimates	126
6.12	Granger Causality Tests for Four period moving SD based Estimates	127
