

## LIST OF FIGURES

<b>Figure No</b>	<b>Title</b>	<b>Page No</b>
2.1	First steps in becoming a good problem solver by utilizing Polya's four steps.	30
2.2	Steps of Polya's approach	34
5.1	Pretest mean scores of Experimental and Control Groups in Mathematical Problem Solving Ability Test	138
5.2	Post test mean scores of Experimental and Control Groups in Mathematical Problem Solving Ability Test	139
5.3	Gain scores of Experimental and Control Groups in Mathematical Problem Solving Ability Test	140
5.4	Pre test scores of Experimental and Control Groups in Mathematical Problem Creating Ability Test	141
5.5	Post test scores of Experimental and Control Groups in Mathematical Problem Creating Ability Test	142
5.6	Gain scores of Experimental and Control Groups in Mathematical Problem Creating Ability Test	142
