ACKNOWLEDGEMENT

First of all, I would like to express my deepest appreciation to Dr. Neeraj Kumar for his guidance, supervision and advice from the very early stage of this research as well as giving me extraordinary experiences throughout the work. Above all and the most needed, he provided me unflinching encouragement and support in various ways. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a researcher and a scientist want to be. The joy and enthusiasm he has for his research was contagious and motivational for me, even during tough times in the Ph.D. pursuit. Without his willingness, suggestions and effort, this Ph.D. thesis would not have been written. I am indebted to him more than he knows.

I am grateful to the Vice Chancellor and Registrar, Kurukshetra University, Kurukshetra for providing me all necessary amenities for the smooth running and successful completion of my doctoral program. The financial support in the form of University Research Scholarship by the Kurukshetra University, Kurukshetra, University Grant Commission (UGC) is highly acknowledged.

I am also grateful to the Dean, Faculty of Life Sciences, Prof. V.K. Gupta and Ex. Dean Prof. Girish Chopra and Dean of Academic affairs Prof. Shyam Kumar for their kind interest and cooperation. I wish to extend my sincere thanks to (Mrs.) Dr. Neelam Garg, Chairperson, Department of Microbiology, Kurukshetra University, Kurukshetra for her kind cooperation, instructions and encouragement.

Very special thanks to Prof. (Retd.)K. R. Aneja, Dr. Baljeet Singh Saharan, Mr. Vijay, faculty members in the Department of Microbiology, Kurukshetra University, Kurukshetra for their keen interest, necessary help and criticism during the completion of the study. They encouraged and inspired me tremendously.

It is great privilege for me to express my esteem and profound sense of gratitude to (Mrs.) Dr. Anita Yadav, Dr. Ranjan Gupta for their detailed suggestions, encouragements, inspirations, care and supportive attitude.

I am also thankful to my co-workers (Arpana Mittal, Gulab Singh and Anish Bhuwal) for providing research assistance, useful approach and cordial environment in the laboratory. I can never forget the moments of share and enjoyment spent with my dear friends Dr. Shiv Giri, Dr. Anil Kumar, Dr. Chetan Sharma, Parveen, Romika, Pankaj, Vikas, Anita, Anuja and Nisha Chandana.

I shall be failing in my endeavors for not recognizing and acknowledging the help and support received from the non-teaching staff of the Department Dr. Subhash Chaudhary, Sh. Umed Singh, and Sh. Savan for their contributions to see this work as a success.

Words fail to express my heartiest appreciation to my husband Er. Vineet Aggarwal for his constant support, understanding, love and helpful discussions. His support, encouragement, quiet patience and unwavering love were undeniably the bedrock upon which my life has been built. Always being my side, he gave me stability to reach heights by inspiring, motivating and strengthening me. He was always there to meet and talk about my ideas, to proofread and mark up my papers and chapters, and to ask me good questions to help me think through my problems. I owe him for being unselfishly let his intelligence and ambitions collide with mine. I am also grateful to Aggarwal family especially my father in law Sh.
Tarsem Kumar Aggarwal, mother in law Smt. Sarita Aggarwal and brother in law Er. Vivek Aggarwal for accepting me as a member of the family warmly and providing me with unending encouragement and support.

My parents deserve special mention for their confidence, endurance, inseparable support and prayers. Their firm and kind-hearted personality had affected me to be steadfast and never bend to difficulties. My Father, Sh. Mohan Lal Goyal, in the first place is the person who rose and fundament my learning character with a love of science and supported me in all my intellectual pursuits. My Mother, Smt. Nirmal Goyal, is the one who showed me the joy of intellectual pursuit since my childhood and whose care, love, teachings and support have brought me this far. Words fail to express my deepest gratitude towards Adarsh, Ashish, Nakul, Nikunj, Priyanshi, Neha, Purnima and Devanshu for being so supportive, caring, understanding and magnanimous siblings.

I feel so happy and proud to mention my little star Manan Aggarwal who came to my life and made it heaven with infinite love and happiness.

Last but not the least; I would like to thank God, the creator, the merciful and the passionate, for showing me inner peace, blessings and providing me the opportunity to step in the excellent world of science. I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

Varsha Goyal
