List of Figures

Figure 1 - The Organization of the Co-Operative Credit Structure ................................................. 34
Figure 2 - Chart Showing the Education Level of Respondents from Public Sector Banks .................. 133
Figure 3 - Chart Showing the Education Level of Respondents from NGB ..................................... 134
Figure 4 - Spider Graph Showing the Means of Public Sector Banks and New Generation Banks regarding Training Objectives .......................................................... 156
Figure 5 - Perceptual Two Dimensional Configuration Regarding Training Objectives in Public Sector Banks ....................................................................................................... 163
Figure 6 - Perceptual Two Dimensional Configuration Regarding Training Objectives in New Generation Banks ......................................................................................................... 166
Figure 7 - Spider Graph Presenting the Sources of Training Needs Identification in Public Sector Banks and New Generation Banks ................................................................. 183
Figure 8 - Perceptual Two Dimensional Configuration Regarding Sources of Training Needs Identification in Public Sector Banks .................................................................................. 188
Figure 9 - Perceptual Two Dimensional Configuration Regarding Sources of Training Needs Identification in New Generation Banks ............................................................................. 190
Figure 10 - Scree Plot in Connection with the Sources of Training Need Identification Regarding Public Sector Banks ...................................................................................................... 198
Figure 11 - Comparison between Public Sector Banks and New Generation Banks Regarding the Need for Additional Training in Banks ............................................................................. 209
Figure 12 - Perceptual Two Dimensional Configurations Regarding the Need for Additional Training in Banks by PSB - Scatter Plot for Component loading of MDS ........................................ 211
Figure 13 - Perceptual Two Dimensional Configurations Regarding the Need for Additional Training in Banks by NGB - Scatter Plot for Component loading of MDS ........................................ 212
Figure 14 - Comparison between the Public Sector Banks and New Generation Banks Regarding the Factors which Prevents Effective Evaluation of Training in Banks ............................... 238
Figure 15 - Comparison of the Response of PSB and NGB on Training ‘Dissatisfiers’ ..................... 245
Figure 16 - Comparison of the Response of Public Sector Banks and New Generation Banks on ‘When Training is Needed Most’ ............................................................................ 254
Figure 17 - Comparison between the Public Sector Banks and New Generation Banks Regarding the Appropriate Location for Training ........................................................................ 260
Figure 18 - The Learning Cycle ................................................................. 261
Figure 19 - Types of Training Provided by Different organizations .......... 262
Figure 20 - Comparison between Public Sector Banks and New Generation Banks
  Regarding the Preferred Training Mode .................................................. 264
Figure 22 - Comparison between the Public Sector Banks and New Generation Banks
  Regarding the Factors Increasing Trainer Effectiveness .......................... 282
Figure 23 - Comparison between Public Sector Banks and New Generation Banks in
  Relation to the Post Training Steps for Training Effectiveness .................. 292
Figure 24 - Comparison between Public Sector Banks and New Generation Banks
  Regarding the Effect of Training on Functional Areas ............................ 301
Figure 25 - Spider Graph Comparing the Means of Public Sector Banks and New
  Generation Banks Regarding Factors Favourable for Effective Training .... 309
Figure 26 - Perceptual Two Dimensional Configurations Regarding the Factors
  Favourable for Effective Training in Public Sector Banks ....................... 315
Figure 27 - Perceptual Two Dimensional Configurations Regarding the Factors
  Favourable for Effective Training in New Generation Banks .................... 318
