ACKNOWLEDGEMENTS

With great pleasure, I wish to express my gratitude to my teachers, family members and friends who helped me in one way or another in the submission of this thesis.

I am especially indebted to Dr. V.T. Sebastian who generously encouraged and guided me in this study. His friendly, but penetrating criticism has enabled me to remove some initial defects and in general to improve the organisation and development of the work as a whole.

I also want to pay my sincere regards and profound thanks to Madhu and Utsav, who encouraged me even under difficult circumstances and probably without their support this project would not have seen the light of the day.

I am extremely grateful to the CANVAS Graphics, Chandigarh and in particular Rajeev, Sandeep, Ranju and Geeta, for their pains taking efforts in typing and printing of this thesis.

Ranvir Singh
