ACKNOWLEDGEMENTS

It is with the most profound feelings of respect and reverence I express my indebtedness and heartfelt gratitude to my research supervisor, Prof. P. Sreenivasaulu, Department of Virology, Sri Venkateswara University, Tirupati for his meticulous guidance, constant encouragement, constructive criticism, extending freedom in planning and executing the experiments, and unwavering help at every stage of pursuit of this research work which have largely contributed to the successful completion of my Dissertation.

I am deeply indebted to Prof. K.V. Mallaih, former Head, Department of Microbiology, Acharya Nagarjuna University, Guntur, for his encouraging guidance throughout the period of investigation, his valuable suggestions and enlightening discussions without which this work would not have come to the present shape.

I am thankful to the Prof. D.V.R. Sai Gopal, Department of Virology, Sri Venkateswara University, Tirupati for permitting me to carry out my research work in M.Sc Microbiology laboratories.

I am grateful to the Chris Anthony, Emeritus Professor of Biochemistry, School of Biological Sciences, University of Southampton, UK and Prof. B. Rajasekhar Reddy, Department of Microbiology, Sri Krishnadevaraya University, Anantapur for helpful discussions and constructive criticism of my research work.

I wish to thank Prof. Yong-lark Choi, Department of Biotechnology, College of Natural Resources and Life Science, Dong-a University, Republic of Korea for helpful discussion and timely help.

Special thanks to Prof. P. Sujathamma, Head, Department of Sericulture, Mahila University, Tirupati, for different kinds of help, during my stay in her house.
Additional thanks to friends Dr. M. Subhosh Chandra, Assistant Professor, Yogi Vemana University, Kadapa, Y. Kantha Reddy, Senior Research Fellow, AIIMS, New Delhi and V.Bandra Murthy, Post Doctoral Fellow, Washington State University, USA for their co-operation at times of need.

Thanks to Associate Professor Munuswamy, Department of Statistics, Andhra University, Visakhapatnam, for all kinds of support for experimental data analysis.

Most importantly, I would like to thank Mr Munuswamy Reddy, former laboratory assistant, M.Sc Microbiology course of SVU.

I wish to thank K. Sunil Babu, Research scholar, Dept. of Microbiology, Acharya Nagarjuna University for co-operation and timely help.

Additional thanks to Curator, IMTECH, Chandigarh, India, for commercial service provided in identifying the fungal culture used for the present study.

I express my sincere thanks to all research scholars of Department of Virology for their timely help.

Words are inadequate to express my profound appreciation and admiration to my beloved parents (G. Veerabhadraiah and G. Umadevi) and sisters (Bharathi and Sharada) for their encouragement, patient understanding and financial assistance.

[G.STHEESH KUMAR]
