*To achieve your desired objectives and to be successful in the path you have chosen you come across many people who directly or indirectly contribute in a number of ways to your success, I am indebted to all those who have helped and supported me. Here, I would like to distinguish and express my special thanks.*

*At the outset, I would like to thank my research guide Dr.D.P.Amalnerkar, Executive Director, Centre for Materials for Electronics Technology, C-MET, for giving me an opportunity to work under his able guidance. I am indebted to him for showing interest in my academic and personnel well being and also for sharing valuable insights with me on material science and nanotechnology during my research work. His enthusiasm, sincerity and dedication towards work proved to be a self motivator for me.*

*I am short of words to express my gratitude to Dr.U.P.Mulik, Director, Centre for Materials for Electronics Technology, (C-MET) Pune, for his constant and tireless help during the entire tenure of my work. He has been a constant source of inspiration, and gave vital suggestions during my research work and for preparation of this dissertation.*

*I am grateful to the management of ELANTAS Beck India Ltd., who have given me an opportunity to pursue my higher education while working.
