ACKNOWLEDGEMENTS

I am highly indebted to Dr. J. S. Kanwar, Ph.D. (Adelaide, Australia), • F.I.C., Deputy Director General (Soils, Agronomy and Engineering), Indian Council of Agricultural Research, New Delhi, formerly Director of Research-cum-Dean, Punjab Agricultural University, Ludhiana, under whose guidance this research work has been completed. He took keen interest in the project and always provided constructive criticism and instructive advice.

My thanks are due to Sh. U.S. Kang, Deputy Commissioner (Food Crops), Government of India and Dr. G.S. Gill, Ph.D., Associate Professor of Agronomy, Punjab Agricultural University, Ludhiana, for their helpful suggestions in writing the thesis. It is also a pleasure to record the appreciation of Mrs. Shanti Malik, Ph.D. (Hindi), who has been freely helping me in many ways.

February 20, 1967.

(Bharwan Singh Malik),
Assistant Professor Agronomy,
Punjab Agricultural University,
Ludhiana.
