ACKNOWLEDGEMENTS

I express my deep sense of gratitude to Dr. J.P. Singh, Vegetable Specialist, Indian Agricultural Research Institute, Vegetable Research Station, Katrain, Kulu (H.P.) for his invaluable guidance and constant encouragement during the course of the study.

I am highly indebted to Dr. V. Swarup, Geneticist, (Floriculture), Division of Horticulture, I.A.R.I. for his keen interest in the present study and critical examination of the manuscript.

I wish to record my sincere thanks to Dr. M.S. Swaminathan, Director, I.A.R.I., New Delhi and Dr. B. Choudhury, Head of the Division of Horticulture, I.A.R.I. for providing necessary facilities to carry out the present investigation.

To my colleagues and friends M/s. B.S. Bhullar, P.C. Thakur, R.S. Arora, B.R. Sharma, B.S. Saini, T.S. Kalda, K.D. Lakanpal and R.N. Tewari, I only express my humble appreciation for the generous help rendered from time to time.

I am also thankful to Shri A.S. Kataria for the help in taking the photographs.

My thanks are also due to Shri R.C. Garg and Shri Lalit Kishore, Rockefeller Foundation for the assistance in analysing some of the data on electronic computer.

(Dated 29/5/70)

(Harjit Singh Gill)
