Chapter	Title	Page No.
I	INTRODUCTION	1-9
II	REVIEW OF LIETRATURE	10-35
2.1	Possession and use of improved household technologies	11
2.2	Constraints faced by the homemakers in the use of improved technologies	15
2.3	Factors affecting the purchase and use of new technologies	16
	2.3.1 Factors affecting the purchase	16
	2.3.2 Factors affecting the use	20
2.4	Impact of modern technologies on management practices	21
2.5	Miscellaneous studies	23
III	MATERIAL AND METHODS	36-44
3.1	Locale of the Study	36
3.2	Sampling Design :	36
	3.2.1 Selection of Cities	36
	3.2.2 Selection of Localities	37
	3.2.3 Selection of Respondents	38
3.3	Selection of the modern household Technologies	38
3.4	Operational Definitions	39
3.5	Construction of the interview schedule	40

3.6	Pre-testing of the interview schedule	41
3.7	Data Collection	41
3.8	Analysis of Data	41
IV	ANALYSIS AND RESULTS	46-137
4.1	Socio economic profile of the respondent	46
4.2	Possession of Modern Household Technologies	55
	4.2.1 Kitchen-related Technologies	56
	4.2.2 Non-Kitchen technologies	57
	4.2.2.1 Washing, ironing and cleaning technologies	57
	4.2.2.2 Recreational Technologies	62
	4.2.2.3 Information and Communication Technologies	62
	4.2.2.4 Comfort Technologies	62
4.3	Extent of use of modern household technologies	64
4.4	Reasons for High Use and Low Use of Modern Household Technologies	79
	4.4.1 Reasons for High Use of Modern Household Technologies	79
	4.4.1.1 Kitchen-Related Technologies	79
	4.4.1.2 Non-Kitchen Technologies	89
	4.4.1.2.1 Washing Ironing and Cleaning Technologies	89
	4.4.1.2.2. Recreational Technologies	91

	4.4.1.2.3 Information and communication technologies	93
	4.4.1.2.4 Comfort Technologies	95
	4.4.2 Reasons for Less use of Modern Household Technologies	99
	4.4.2.1 Kitchen Related Technologies	99
	4.4.2.2 Non-Kitchen Related Technologies	104
	4.4.2.2.1 Washing, Ironing And Cleaning Technologies	104
	4.4.2.2.2 Recreational Technologies	104
	4.4.2.2.3 Information and Communication Technologies	107
	4.4.2.2.4 Comfort Technologies	107
4.5	Perceived impact by women respondents of modern household technologies on management practices	111
	4.5.1 Relationship of Perceived Impact with Socio-Economic Characteristics	117
4.6	Attitude of respondents towards possession and use of modern household technologies	120
4.7	Factors affecting the purchase of new household technologies	125
4.8	Problems faced by the women for buying and using household technologies	133
V	TESTING OF HYPOTHESES	138-141
VI	SUMMARY, CONCLUSIONS AND RECOMMENDATIONS	142-156
	LIST OF WORKS CITED AND CONSULTED	157-163
