ACKNOWLEDGEMENT

The author owes a deep debt of gratitude from the core of his heart to Dr. Gurnam Singh, Pn.D. for his guidance, constructive suggestions, helpful criticisms and profound encouragement throughout the present research work. His brilliant guidance, incessant drive and extraordinary care took the author through all the obstacles and hindrances that were strewn across the path and made the research work an enjoyable experience.

The author express his sincere thanks to Dr. H.R. Sheeder, Professor and Head, Department of Electrical Engineering and Dr. Baljeet S. Kapoor, Principal, Punjab Engineering College for all the encouragement and for providing the necessary facilities for carrying out the present work. The various research facilities granted by the Chandigarh Administration are thankfully acknowledged.

Thanks are due to the authors of various technical articles and books referred during the course of this research work.

The author remembers with special pleasure Mr. Krishan Kumar Garg, Mr. Shiv Kumar Suman for their encouragement and help in the present work.

The author wish to thanks his parents for their moral support. The author also acknowledges with love and affection his son, Om and his wife, Malvika for the invaluable assistance both tangible and intangible, given during the period of research work.

Lastly, but not the least, I would like thank the technical staff of this department for providing help at different stages of the thesis work.

January, 2004
