

List of Tables

Table 3.1	Internal coordinates and Urey Bradley force constants (mdyne/Å) for PMP.....	91
Table 3.2	Pure Side Chain modes and their assignments.....	96
Table 3.3	Backbone modes and their assignments.....	99
Table 3.4	Mixed modes and their assignments.....	100
Table 4.1	Internal coordinates and Urey Bradley force constants (mdyne/Å) for PMT.....	121
Table 4.2	Calculated and observed frequencies and potential energy distribution (PED).....	122
Table 4.3	Comparison of thiophene ring modes of pmt with P3ETH.....	127
Table 4.4	Repulsion between pair of modes and exchange of character.....	132
Table 5.1	Optimized geometrical parameters of CDMABA by HF and DFT in comparison with XRD data.....	144
Table 5.2	Second-order perturbation theory analysis of Fock matrix in NBO basis.....	153
Table 5.3	Theoretical and experimental vibrational wavenumbers (cm ⁻¹) of CDMABA.....	160
Table 5.4	Calculated nmr shielding tensors and chemical shift values with comparison of chemical shifts of ¹ H-NMR with experimental values.....	165
Table 6.1	Optimized geometrical parameters of LLMHCL.2H ₂ O by HF and DFT in comparison with XRD data.....	181
Table 6.2	Second-order perturbation theory analysis of Fock matrix in NBO basis.....	187
Table 6.3	Theoretical and experimental vibrational wavenumbers (cm ⁻¹) of LLMHCL.2H ₂ O.....	189
Table 6.4	Hydrogen bonding geometry in LLMHCL.2H ₂ O.....	195
Table 6.5	Calculated all first hyperpolarizability components (a.u.) and total hyperpolarizability (esu) value of LLMHCL.2H ₂ O.....	202
