CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
Chapter 1	Introduction	1
1.0	Introduction	1
1.1	Role of Small and Medium Enterprises in growth of the India's economy	2
1.1.1	Performance of SMEs	3
1.1.2	Manufacturing spectrum of the SMEs	6
1.1.3	Resilience to the global competition	7
1.2	SMEs in the Pune District	8
1.2.1	Categorization of Industrial Units in Pune District, into Small, Medium and Large Units as per the norms announced by the Government of India	9
1.2.2	Employment provided by the Micro, SMEs and Large enterprises during 2007 in Pune District.	10
1.2.3	Classification of Industries in Pune District by Annual Sales slabs (2006-07)	10
1.2.4	Exports from Pune	12
1.3	Definition of the Micro, small and medium enterprises by the Governments of a few countries.	12
1.4	Growth Opportunities available to the manufacturing enterprises	16
1.5	Information Technology	18
1.5.1	Role of Information Technology	18
1.5.2	Chasm between IT and Business and its mitigation	20
1.6	Conclusion	23
Chapter 2	Role of IT in Medium Enterprises	25
2.0	Introduction	25
2.1	Role of IT	26

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
2.1.1	Efficient Business Processes aligned with Business	27
2.1.2	Visibility of Actionable Information	27
2.1.3	External Changes and fast response	30
2.1.4	Letting the market opportunities slip	30
2.2	Applications of IT in Medium Enterprises	31
2.3	Further details of the above IT Applications Implemented by Medium Enterprises	38
2.4	Enterprise Resources Planning (ERP)	53
2.5	Conclusion	55
Chapter 3	Research Methodology- Sampling Techniques & Questionnaire	57
3.0	Introduction	57
3.1	Research Objectives	58
3.2	Research Methodology	58
3.3	Hypotheses	59
3.4	Types and Sources of Data	59
3.4.1	Primary Data	60
3.4.2	Secondary Data	60
3.5	The Survey	61
3.6	Sampling Techniques	61
3.6.1	The statistical population	62
3.6.2	Sampling	62
3.6.3	Specifying the sampling unit	63
3.6.4	Specifying the sampling method	63
3.6.5	Determination of the Sample Size	64
3.7	Questionnaire	64
3.8	Interview	66
3.9	Data Analysis	66
3.10	Scope and Limitations of the study	69
3.11	Findings	70

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
3.12	Recommendations	71
3.13	Summary	71
Chapter 4	Analysis of the Research Data collected	73
4.0	Introduction	73
4.1	Survey Method and Questionnaire	73
4.2	Grouping of the Questions included in the Survey Questionnaire	74
4.3	Categorization of the Responses to the multiple choice questions	75
4.4	Analysis Methodology	75
4.5	Criteria Wise Analysis	77
4.5.1	Company culture/structure and corporate processes (C1)	77
C1.1	Existence of Vision/Mission/Quality Statement and knowledge of these among employees	79
C1.2	Involvement of management in developing Vision/ Mission/ Quality Statement	81
C1.3	Existence of formal Business Strategic Planning process	82
C1.4	Involvement of management in development of Business Strategic plan	83
C1.5	Role of IT in realizing the Business Strategic plan	84
4.5.2	IT strategic plan and its synchronization with the business plans (C2)	86
C2.9	Formal Synchronization of IT Strategic Plan with the Business Strategic Plan	88
C2.10	Level of IT Manager in the organization structure	89

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
C2.11	Reasons for IT manager not reporting to MD	91
C2.12	Profile of IT Manager (qualification / business knowledge and experience)	92
C2.13	Role and Responsibilities of IT Manager	94
C2.31	Opinion on integration of IT Strategic Plan with Business Strategic Plan	95
C2.33	Why IT strategic plan is not integrated with Business Strategic Plan	97
4.5.3	Top management's perception of the current 'Role of IT in the Organization' (C 3)	99
4.5.4	The Role that the Top Management wishes IT to play in the Organization (C 4)	100
C4.6	IT Role wished in Strategic Planning (Making & Realizing)	102
C4.7	Annual operational planning process exists and who are involved in making it	104
C4.8	IT Role (wish list) in making/realizing Operation Plan	105
C4.18	Expectations from implementation of IT Applications	106
C4.35	Possible Contribution by IT in growth of the company	108
4.5.5	Focus of IT Applications being deployed by the Organization, selection process followed and difficulties faced in effective implementation. (C 5)	109

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
C5.14	Key Focus of IT applications	111
C5.16	Selection process of IT Applications	114
C5.19	Why desired IT Applications are not implemented	115
4.5.6	Strengths and weaknesses of the IT Organization	117
4.5.6.1	Strengths	117
4.5.6.2	Weaknesses	119
4.5.6.3	Analysis of the Strengths and Weaknesses listed above	120
4.5.7	Continuous process improvement activities being undertaken by the Organization (C 7)	121
C7.22	CI (Continuous Improvement) Methodologies being followed for the manufacturing processes	123
C7.23	Time span of use of improvement methodologies in manufacturing processes	125
C7.24	Monitoring methodology used for continuous improvement in the manufacturing processes	126
C7.25	Ownership of Continuous Improvement initiative for the manufacturing processes	127
C7.26	CI (Continuous Improvement) Methodologies being followed for the non-manufacturing (Business) processes	128
C7.27	Time span of use of improvement methodologies for the Business Processes	129

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
C7.28	Methodology used for monitoring consistent execution of the Business Processes	130
C7.29	Ownership of the Continuous Improvement initiative for the Business processes	131
4.5.8	Process of IT Implementation that drive effective implementation (C 8)	133
4.6	The Currently deployed IT applications (that are considered to be contributing the maximum to the performance of the enterprise) and the IT applications that the respondents would like to deploy in the near future	138
4.6.1	The Best IT applications currently deployed	138
4.6.2	IT applications that are planned to be deployed	140
4.6.3	IT Applications used for participative and empowered structure and continual quality and process improvement	141
4.7	Testing of the hypotheses	141
4.7.1	Hypotheses to be tested	141
4.7.2	Grouping of questions in the survey questionnaire	142
4.7.3	Mapping of the criteria to the hypotheses	144
4.7.3.1	Hypotheses 1	144
4.7.3.2	Hypotheses 2	146
4.7.3.3	Hypotheses 3	146
4.8	Statement of aims and objectives	147

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
4.8.1	To find out what applications of IT tools and techniques are deployed by the medium enterprises in and around Pune.	147
4.8.2	To identify the applications of IT tools and techniques that contribute significantly to the growth of medium enterprises for achieving world class performance	148
4.8.3	To trace the enabling drivers for successful implementation of the identified applications of IT tools and techniques	148
4.9	Summary	148
Chapter 5	Findings and Conclusions	150
5.0	Introduction	150
5.1	Findings	151
5.1.1	The gaps identified at the Criterion level	151
5.1.1.1	The role that the top management wishes IT to play in the organization	151
5.1.1.2	Continuous Process improvement activities being undertaken by the organization	151
5.1.2	Sub-criteria level gaps	151
C 2.9	Formal Synchronization of the IT strategic plan with the Business Strategic plan	151
C 2.10	Level of IT manager in the Organization Structure	152
C 2.12	Profile of the IT manager	152
C 2.13	Role and Responsibilities of the IT manager	153
C 7.26	Continuous Improvement (CI) methodologies being followed for improving the non-manufacturing (Business) processes	153

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
C 8.17	Process of selection and implementation of the IT applications	154
C 8.18	Process Improvement Initiative as a prelude to implementation of an IT application	155
5.1.3	Strengths (drivers) and weaknesses (barriers) of the IT organization of an enterprise	155
5.1.3.1	Strengths	155
5.1.3.2	Weaknesses	155
5.1.3.3	Summary	156
5.1.4	Focus of the IT applications deployed	156
5.1.4.1	Currently deployed IT applications	156
5.1.4.2	IT applications planned to be deployed in the near future	157
5.1.4.3	Summary	157
5.1.5	Other Findings	157
5.2	Conclusions	160
5.3	Validation of the key gap from the secondary data	163
5.4	Summary	172
Chapter 6	Suggestions & Recommendations and Concluding Remarks	174
6.0	Introduction	174
6.1	Suggestions and Recommendations	174
6.1.1	Alignment/ synchronization of the IT strategic plan with the business strategic plan	174
6.1.1.1	What is alignment of the IT strategic plan with the business strategic plan and how to achieve	175
6.1.1.2	Relationship with the other identified Gaps	179

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
6.1.1.3	Impact	180
6.1.1.4	Suggestions and Recommendations	180
6.1.2	C 8.17 Process of selection and implementation of the IT applications	183
6.1.2.1	Gaps in the Implementation Process deployed for implementing IT applications	183
6.1.2.2	Suggestions and Recommendations	184
6.1.3	C.8.18 Process Improvement Initiative as a prelude to implementation of an IT application	185
6.1.3.1	Gap	186
6.1.3.2	Suggestions and Recommendations	186
6.1.4	C 7.26 Continuous Improvement (CI) methodologies being followed for improving the non-manufacturing (Business) processes	187
6.2	Summary	187
6.3	Benefits of this research to the Industry	189
6.4	Further Research	189
Annexure 3-01	List of Participating Companies	191
Annexure 3-02	Survey Questionnaire	192
Annexure 4-01	Mapping of Criteria to the Questionnaire	195
Annexure 4-02	Mapping of Responses to C and NC	196
Annexure 4-03/04	Compilation of C and NC data and Roll up to the Criteria	238

CHAPTER Ref. NO	CHAPTER TITLE	PAGE NO
Annexure 4-05	Criterion 1: Chi Square Test and P-Chart	248
Annexure 4-06	Criterion 2: Chi Square Test and P-Chart	249
Annexure 4-07	Criterion 4: Chi Square Test and P-Chart	251
Annexure 4-08	Criterion 5: Chi Square Test and P-Chart	253
Annexure 4-09	Criterion 7: Chi Square Test and P-Chart	255
Annexure 4-10	Criterion 8: Chi Square Test and P-Chart	257
Annexure 5	List of Tables	261
Annexure 6	List of Exhibits	262
	Bibliography	267
